Your wellbeing is at the center of my heart. In response to COVID-19, I have developed **new protocols** to ensure our safety. My singular goal is to provide clients with the confidence and assurance that their health and safety is first priority.

- *With this in mind, there is increased frequency of cleaning with natural odorless hospital-grade disinfectant/sanitizer on all high-touch surfaces and areas such as therapy room, bathroom, hallways etc.
- *I am offering in-person sessions of no more than 2 clients per day. Between clients I will change clothes and massage table linens, complete a full cleaning and HoCl fogging.
- *Phone consultation before session. *Open windows when weather appropriate.
- *Mask worn by therapist. *For clients (surgical masks provided if needed). * Vollara® Air Purifier
- *COVID screening beforehand (temperature taken, intake questionnaire, follow up phone calls, optional finger oxygen monitor).
- *Prominent placement of hand sanitizer stations throughout public areas.

Evolving new protocols are under consideration based upon guidance and information shared by various health organizations such as WHO, CDC, local authorities, etc.

*Holding Heartfelt Love,
vibrance*
